## BOARD OF HEALTH REPORTS CASES

### WHOOPIING COUGH PATIENTS.

The following children are still under quarantine with whooping cough: Ariene Adams; Maxine Adams; Lester Larson; Kenneth Larson; Horace Failing; James Weir; Harry Berg; Kermit LaMotte; Margaret Duval; Constance Morrissey; Helen Dreschler; Richard Dreschler; Genivis Witkowski; Helen Witkowski and Wesley Dunham.

Miss Flora Stephan is under quarantine with scarlet fever.

Lida B. Yoder is ill with German measles.

The State Board of Health reports that measles is one of the most contagious of all diseases. It is communicated by personal contact with the discharges from an infected person, or by contact with clothing, handkerchiefs, or other articles infected with the recent discharges from a person sick with measles. The virus of measles is short-lived outside of the human body and probably cannot propagate itself except within the body, the specific germ living but a few hours in the presence of air and sunlight. Discharges from the throat, nose, and mouth of a patient are extremely dangerous, and those from the eyes and ears are also thought to carry the contagion.

Since the infection is spread by those sick, with measles during the early stages before it is possible to recognize the disease, and when the patient does not feel ill enough to go to bed, the problem of restriction of measles becomes a question of taking every possible precaution. The first symptoms of measles are those of catarrhal cold, coryza—a watery discharge from the nose and eyes—together with some hoarseness and a high-pitched cough. The child apparently has a severe cold in the head, the eyes are red and unusually sensitive to light.

To aid in cutting down the spread of measles to protect the child and safeguard other children in the same family or in neighboring families and at public schools, children with the initial symptoms of the disease should be separated from others—except necessary attendants—until the exact nature of the infection is determined.

### BE REASONABLE.

The man who has to give several reasons for not going to church should be there for he has a troubled mind or conscience. A lot of people do not go to church because they are blind, others because they have never seen much of the world and do not know that church going is a mark of civilized life; others because they have tastes for inferior things and never take anything that does not taste to suit them. Some people will go to church when they live in a town where many of the people are blind, but when they get into a community of non church goers they breathe a sigh of relief and proceed to die with the rest. Some people would not eat if others did not. It is a world of funny talk and we are all in it. But there is a lot of thoughtlessness running through the current of our lives. Go to church because from the church goers of the years have come the fine forces that make our world a livable world. Go to church to get your heart and your head ready for the battle. Go to church for the sake of the children. Parents are paying the piper today as can be learned in any paper of the land. Let's wake up and be on hand at church next Sunday somewhere.

From the congregation last Sunday it did not seem possible that men and women would be out Monday. It would surely be too cold. But they were out. However, a number of faithful folk came to their church. Listen! You are to be at the M. E. Church Sunday next, if you have no other, because it is the place to be and it is a duty, and it is a mark of interest in the better things.

Preaching by the pastor of the church. Sunday School at eleven forty-five. Two services and the school. O come all ye faithful. C. E. Doty.

### AN EXPLOSION OF PEDIGREE TRUTH.

(Notes of the Grayling Schools.)

"To be or not to be," that is the question. We agree with Shakespeare these days.

#### Facts.

Classes in Occupations, Commercial Geography, Economics, and Community Civics will be given next semester. An advanced class will be given in 8th grade Arithmetic from 8:00 to 8:30 in the morning.

The Southside school children have been weighed and it was found that there were twelve who were ten per cent or more under weight. Milk is received in half pint bottles. Each pupil who is under weight receives one bottle of milk and two gram crackers twice a day.

Netro Dougal, Annabell Harris, and Harold Coffman returned to school after a number of weeks illness.

The skating rink will soon be in shape for everyone. Watch for the casualty list next week.

The schedule of next semester's studies is out.

"Have your spring canning done by the General Science Class" is what the editors say after various tests of the goods canned by them.

The Juniors are working hard to get money for the Prom. Friday they sold Red-hot-Saturday, Frostbites. It is doubtful whether the Juniors or Miss Joseph is.

The A students for the year: Algebra 3—Ruth Harrington and Florence Stephens; Geom. 1—Nyland Houghton; Latin 1—Nina Sorenson; English 7—Shirley Mason; History 8—Genevieve Montour and Edward Parker. (High School.)

William E. McCullough presented the High School library with a year's subscription to a science magazine and also a reference book for Chemistry.

Mrs. E. E. Hartwick of Detroit presented to the school a copy of the life of Major Hartwick, a graduate of this school in 1888.

The second grade are enjoying a number of spell downs.

A number of the grade students are absent with the whooping cough.

The grade teachers will enjoy a weeks rest during examinations. We wonder.

Miss Mox would like to know where Miss Hertzler gets all the gum she has in her desk? Pupils of course.

A number of the boys will be absent for an indefinite period. Mrs. Chincock will substitute for her.

Margaret and Ella Hanson will leave school next semester.

The Hoboes met their match when they played the fast East Jordan quintet last Friday. The game opened with Smith, the Hoboes' fast center, making the first basket.

The game was very slow neither team seeming to be able to break thru the other's defense for a basket. Then the Hoboes' team work told and they ruzed up some baskets. The first half ended with the Hoboes in the lead by a score of 9 and 4. The second half was made up of a number of baskets.

In the last minute of play East Jordan ruzed up a foul shot and tied the score then the center made the winning basket for them from the center of the floor. The game ended with East Jordan in the lead by two points 17 and 13.

The Grayling girls were also defeated on this night by the East Jordan girls. The girls team is very fast and the game was a close, fast one until the last minute. The score being tied a number of times during the game. The girls will play Alba Wednesday and expect to come home with a scalp hanging on their belts.

Coch Morrow's Hoboes will meet the Alba quintet at Alba Wednesday and the Cheboygan quintet Friday, at Cheboygan.

Some School Spirit shown at the Basket Ball game Friday when Ruth Woods, one of the High School students began yelling for the East Jordan players.

## The Port of Missing Men

It was warm, very, very warm. Noises and passionate voices came from the room. "Please?" "No." "Just one?" "No, Jimmy, you know what I told you?" "Oh, I know, but one won't matter, and I'll not ask again." "But think of the consequences, Jimmy Boy. Tomorrow you'll be sorry." "No, I won't!" "Well, for goodness sake! take one! Do you think mother is going to stand here baking cookies all day?"

Lost. Three pencils. A number of books. A magazine. One Milnes Arithmetic. Lower part of Fountain pen. Middy. Found. One pair Tennis shoes. One snap eraser. Gloves.

You who always "hear" a great deal; remember that you hear a great deal that isn't true.

Can you be laughed at and not bothered by laughter? If so, you have a greater mind than ordinary. Walt Whitman suffered so little from laughter from other people, that he could buy a watermelon, sit right down on the curb stone of a busy street and eat it. "Let them laugh" he would say, "I have the melon."

Henry Clay could sit down on a box amidst a howling mob, or at a political convention, take off his "Beaver hat," use the top of it for a desk, and write a sizzling editorial for his newspaper. What cared he if the people laughed at him?

The "old folks" tell us of a man who used to start the singing at his old time prayer meetings. He couldn't do it very well but nobody else would. He did it as a duty. They snickered at him as he threw out a "note." Other folks smiled, too. He knew that, but he considered this starting as his cross, and wear it he would.

It was like being under fire in a battle—necessary, but most unpleasant. Somebody must be under fire if we are going to have battles.

Moral courage! Can you start a "note"? Would you melt under the cross fire of derisive laughter? Would you get up and leave the melon? If you could stand the groff, the laugh, you are near great.

### FINGER-PRINTS DEPOSITORS.

Grayling Bank Guarantee Against Check-Raising.

Finger-printing as a method of identification has been instituted by the Bank of Grayling. In addition, the bank is protecting customers against check-raising by guaranteeing each with a \$1,000 bond. The bond also carries the finger-prints of the depositor and signature.

Bankers say this is the first time that this method of protecting checking account has been used.

### ALSO THINKS BOOTLEGGERS GET OFF TOO EASILY.

D. E. Matheson, editor of the Rosamond Herald-News, says in a letter dated January 22, as follows:

"Couldn't help but notice your editorial relative to booze sentences. You hit the nail on the head and I hope in the future that it will bring results. Sure have been getting off light in this country; is it any wonder that the business progresses?"

## WILL PROSECUTE LOCAL OFFICIALS

### STATE TO TAKE ACTION AGAINST REGISTRARS DELAYING REPORTS.

Preliminary proceedings for prosecution against 26 local registrars of vital statistics in 18 different counties are being instituted by the State department of health following alleged failure of the registrars to comply with the law which requires reports of births and deaths to be filed with the state authorities before the fifth of each succeeding month.

County prosecuting attorneys have been mailed the names of the offenders and histories of the individual cases which will enable them to take immediate action.

Failure to perform any of the duties imposed upon the local registrars is deemed a misdemeanor and upon conviction is punishable with a fine of from \$10 to \$100, imprisonment of not more than 30 days, or both fine and imprisonment. This penalty is provided in both the birth and registration laws. Thus a registrar may be liable to a \$200 fine and 80 days imprisonment.

"Accurate keeping of birth and death records is considered one of the highest marks of development of intelligence by civilization," says Dr. M. Olin, commissioner of health. "Every certificate filed with the department is examined and all information tabulated for legal and public uses. Whenever reports are delayed from a community there is the possibility that outbreaks of disease may occur there which might have been received by health authorities on time."

### COULDN'T PLAY WORTH A DARN.

Grayling Walked All Over Cheboygan's "Fast" Basket Ballers.

Eight of Cheboygan's fastest basket ball shooters came to Grayling Saturday expecting to beat the Grayling Independents. They looked pretty good, had the size and beef but if they were ever able to play basket ball they miserably fell down that night. They got just three points in the whole game, Grayling got 51. It was a walk away from start to finish.

The visitors tried hard to hold Grayling in check but there was no stopping our gang after the ball was tossed into the air. At times Cheboygan would get the ball and it looked as tho they would get thru their opponents by their apparently clever passing but before they could get near the Cheboygan basket someone was sure to snap the ball away from them.

Morrow and Thompson played at guard and their defense was as rigid as a stone wall. With few exceptions all the shots Cheboygan got were from beyond the foul line, and too long to be successful, except for possible lucky shots.

Charlesford and Johnson made up formidable forwards the former starting with 9 field throws and one foul throw. His shots were clever and accurate. Besides playing a star guard, Morrow also gave a good account of himself in shooting baskets, and had 8 baskets to his credit, and his playing showed exceptional brilliancy.

Milnes played his usual style of deadly center, and got the jump on the ball most of the time to the advantage of his fellow players.

The Cheboygan players were lined up as follows: Sprag, right forward; Guine, left forward; Pringle, center; Enos, left guard and Bell right guard.

Score: First half: Cheboygan, 8; Grayling, 19; final score: Cheboygan, 8; Grayling, 51. Field baskets, Childs 1; Charlesford, 8; Johnson, 8; Milnes, 8; Morrow, 8; Libke, Reynolds. Free throws—Enos, 1 in 7; Charlesford, 1 in 5; Johnson, 0 in 2. Substitutions—Childs for Sprag, Jordan for Bell, Hudson for Pringle, Doroh for Johnson; Reynolds for Milnes; Libke for Charlesford; Milnes for Thompson; Johnson for Doroh; Thompson for Reynolds.

### Milk—Keeping It Clean.

Some one has wisely said: "The health of the child is the power of the nation."

Though there is wonderful power for good in milk for the physical development of the child, that mighty source of good is often contaminated through ignorance, carelessness or greed.

When a man prepares to milk a cow, he has hardly fulfilled the requirements of sanitation when he gives the udder two or three casual passes with his hand and proceeds with the milking.

The proper way to prepare a cow for milking is to have her well bedded the night before. The milker's hands should be thoroughly washed, after other chores, before milking. His finger nails should be cut close. His clothes should be clean. He should be, preferably, smooth shaved. The cow's flank, tail, teats, udder, and body adjacent should be washed morning and night, with warm clean water and a clean cloth. These parts should then be wiped dry with a clean cloth. The milker should milk dry handed. The disgusting practice of some of wetting the fingers in milk by dipping into the pail or by milking on them should neither be practiced nor tolerated.

The first let of milk from each quarter of the udder should always go to the floor instead of the pail.

Milk should be removed from the stable as soon as drawn, as it promptly absorbs odors.

It should have been milked into small-topped pails which prevent much of the hair and invisible dust, loosened by the working of the udder, from falling into the milk.

Clean milk is a wonderful and delicious thing. Unclean milk is horribly disgusting.

Visible dirt does not tell the whole story, some of the manure that falls into milk is dissolved, and is no longer noticeable to the eye.

If milk is measured out from a large can at the door of each customer, dust and dirt from the street as well as bacteria may get into it.

The custom of delivering it in sealed bottles is much neater, and has the further advantage of giving buyers more uniform amounts of cream than where some get the top and some the bottom of milk taken from a large can.

Milk the Possible Carrier of Disease. Disease germs may get into milk either directly from a diseased cow, or indirectly from an infected person, from polluted water, or in some similar way.

The most dreaded disease which may come directly from cows is tuberculosis.

There is quite enough evidence that tuberculosis may be carried in this way to make the use of milk from tuberculous cows too dangerous to be tolerated, even when the animals are only slightly diseased.

Scarlet fever, typhoid fever, and diphtheria may be carried by milk.

No water which is not above suspicion should be used about the dairy for either drinking or washing.

No person who has been exposed in any way to such diseases should be allowed about the cows, the milk, or milk utensils.

Milk should be quickly cooled before bottling.

### Authorities Speak.

Dr. Conn the eminent bacteriologist and milk expert, speaks of the pasteurization of milk for thirty minutes at 145 degrees as the "American Ideal Method of Pasteurization."

He points out that, at that temper-

ature, all disease germs in milk are killed.

H. E. Barnard, M. D. State Drug and Food Commissioner of Indiana says that milk, pasteurized or raw, is equally high in food value.

In pasteurization no coagulation takes place; the temperature is too low, the albumen stays in perfect solution, and the chemical composition is in no way changed by the heating process.

Weld made careful study of health of infants in connection with a Baby Milk Philanthropy, carried on in Washington, D. C., and found that babies fed raw milk and pasteurized milk showed but slight difference in average net daily gain in weight, during the test period. The slight difference was in favor of pasteurization.

Other investigations showed that the soluble phosphates, which form a valuable part of the mineral content of milk, do not become insoluble at temperature of pasteurization.

The fat content was quite unchanged by heating for pasteurization.

Dr. McCollum, great nutrition specialist, says: "In milk are found the growth promoting bodies absolutely necessary to proper growth. These bodies are not injured by heating."

"Infant mortality is decreasing where pasteurized milk is fed. Other diseases of infants and children are diminishing in severity with coming of better feeding methods."

"Pasteurization puts milk into best possible form for infant feeding."

"It increases safety. It removes infection."

C. H. Lerrigo, M. D., President Kansas Society for Study and Prevention of Tuberculosis says:

"By pasteurization milk suffers no damage, not even so much as a disturbance in rising of cream. Diphtheria germs die at 120 degrees of heat; Pus germs die at 133 degrees of heat; Typhoid germs die at 135 degrees of heat; Tuberculosis germs die at 138 degrees of heat."

"Practically all disease germs are killed before 140 degrees of heat is reached; whereas the milk enzymes, which must be preserved, are not affected at all."

"Pasteurization does not disturb the actions of the enzymes or vitamins of milk."

He adds: "Measures to exclude germ life from milk that would have been considered absurd twenty years ago are:

1. Barn kept exclusively for cattle.
2. Four square feet of glass per cow—light.
3. 500 cubic feet air per cow—ventilation.
4. No cowbells.
5. Smooth walls; few places for dust to accumulate.
6. Walls white washed two or three times a year.
7. Manure not allowed to accumulate.
8. Milker wear clean suit.
9. Milk with clean, dry hands.
10. Before milking, cow's udder washed and wiped with clean water and cloths.
11. Cow brushed and curried daily.
12. Milk not allowed to stand in stable absorbing flies and odors.
13. Pasteurize to kill all disease germs.
14. Cool rapidly.
15. Keep cool."

Never take milk bottles into sick rooms. Bottles should always be rinsed in cold water, then thoroughly washed and scalded before returning to milk man.

Never take milk from a dairyman who does not disinfect bottles with boiling water or steam.

Metropolitan Life Insurance Company says: "Ten bottle-fed babies die to one breast-fed baby."

"About 25 per cent of tuberculosis in children is contracted from cow's milk."

"Tuberculosis in milk is avoided by (Continued to last page.)"

GEORGE BURKE, Grayling, Mich.

## STATE NEWS

Kalamazoo—Election of this city will vote upon the proposition to issue \$140,000 sewer construction bonds at a special election, Feb. 28.

Grand Rapids—Dates for the West Michigan State Fair, this year, were set for Sept. 13 to 22. Frank G. Row was elected president, succeeding L. G. Lilly. The fair goes into the new year with a deficit of \$8,528.

Flint—When O. H. Tobey was soldering the gas tank of an automobile, the tank exploded, flaming gas burned off his eyebrows and his hair, and severely burned his face. He was hurried 10 feet, fracturing his right arm.

Lansing—The public utilities commission has begun an inquiry to learn whether freight rates on farm products are not too high. All Michigan railroads are ordered to enter an appearance February 16, to show why these rates should not be reduced.

Adrian—Resolutions calling for the repeal of the Covert highway act were adopted by the Lenawee board of supervisors after several members had voiced their criticism of the state law under whose provisions highway construction in this county had been undertaken.

Saginaw—Though he is only 5 years old, Jack Mason won a hero's laurels when he rescued from drowning in a cistern, Matthew Kwapis, his 3-year-old playmate. Jack lay prone, grasped the drowning child's arm, when he came to the surface, held fast, and shouted for help.

Onaway—Fred Truaxe, in charge of forest reserves near Onaway, was burned seriously when he dropped a match into gasoline which had dripped from an automobile, and exploded 40 pounds of dynamite. Two automobiles and a barn were destroyed. Truaxe saved himself by plunging in a snowbank.

Houghton—Although resumption of mining operations by the Calumet & Hecla, Amheek, Allouez and Isle Royale mines is set for April 1, men will be taken on from time to time before that date to get the properties in shape for production. These mines have been shut down since April 1 last year.

Portland—Charles H. Maynard, 91, president of the Maynard-Allen State bank, died Jan. 16, of apoplexy. He was born in Wayne county, New York state, and came here in 1839, remaining a resident for 80 years. He owned the first grain elevator here and founded the bank in 1872 with E. M. Allen and J. B. Roe.

Grand Rapids—An United States district court jury has returned a verdict of \$2,086 against Seroll P. Powers, of Nashville, which is said to represent the alleged amount of excess wool profits made by Powers in 1918 as a dealer in fleece wool clips. The excess is reported as one and one-half cents per pound.

Flint—Upon completion of an examination of the stomach of William L. Hoffman, 48, steward for the Michigan School for the Deaf, who was found dead Jan. 17, Coroner C. D. Chapel declared that marked traces of a quick-acting poison had been found and that he would sign the death certificate naming suicide as the cause.

Grand Rapids—The city commission has designated the Trades and Labor council as a clearing house, through which local unemployed men may obtain jobs, from the city. Letting of contracts for the year's public improvements will begin immediately and by March 1 is estimated work involving an expenditure of \$1,300,000 will be under way.

Corunna—Twenty days in the county jail is the sentence that Earl Mott, of Bancroft, earned by not being true to his word. With two others, he was caught three weeks ago hunting rabbits with a ferret. The other two, paid a fine and Mott was to return later and settle. He failed, and when he was found, Miss Stella Potter, justice, gave him 20 days for it.

Pontiac—William Nicolai, charged with keeping a place where intoxicating liquors were sold, was found guilty by a jury after two hours' deliberation. Nicolai's arrest some weeks ago led to much public interest. Officers stated they had confiscated a "little red book" in which records of sales to local citizens were recorded. The book, however, was not produced in the case nor was any reference made to it.

Muskegon—George Tarr, a bus driver on the Muskegon Heights run, which was recently put out of commission by the action of the local city commission, was arrested Tuesday in Jackson Prison. Tarr was charged with ordinance restricting the use of buses on the city streets. The fight will be carried as a test case to the supreme court, which will be asked to pass for the first time on the validity of an ordinance made by a city commission to restrict the use of buses on streets in cities.

Traverse City—Improper mating is rapidly increasing the social liabilities of this country. Dr. A. S. Howley, alienist of the Traverse City state hospital stated in addressing the Rotary club here, He urged marriage at an early age, and the use of time and study of the human stock before marrying. "Every young man or young woman has the right to know the brand of stock into which he or she is marrying and until such a time as we begin to study this problem and make marriage more difficult, conditions will not be remedied."

Lansing—The public utilities commission has fixed the date of hearing on the question of Michigan State Telephone company rates in all its exchanges in Michigan, including Detroit, as Feb. 14. The inventory and appraisal of all Michigan state properties outside Detroit has been completed, printed and bound, and is ready for examination. The Detroit appraisal will have been brought up to date by the time of the hearing. A thorough audit of the company's books, covering its whole history, has been made by Crescent C. Parker.

Ludington—An appropriation of \$35,000 in bonds was made by the city commissioners for a community gymnasium. Construction will start soon.

Saginaw—Mrs. George F. Merrill and her young daughter were rescued by neighbors from the second story of their home when it burned and they were trapped.

Lansing—The Booth Publishing company, of Detroit, filed an amendment to its articles of incorporation, increasing its capital stock from \$3,000,000 to \$5,000,000.

Ann Arbor—The eighth annual conference of highway engineers in Michigan will be held in University of Michigan building Feb. 13 to 17. Moving pictures showing improved road making machinery in use will be a feature.

Ionia—J. Clark Sutton, of Muir, is dead as the result of loss of blood from injuries received on a buzz saw. The belt broke and threw Sutton against the saw and in addition to cutting him badly he was internally injured, physicians say.

Muskegon—Henry Busse, a stockholder, has started suit against the Lakewood Utilities Co., owners of the Lakewood summer resort, charging fraud and asking for a receiver. He says the officers squandered \$45,000 on a street railway line.

Albion—The full allowance of \$10,000 on the burned Albion college gymnasium was allowed by the official auditor. The amount is the exact cost of the building in 1922. Contractors state that twice the sum would be required now to replace the old building.

Kalamazoo—In an effort to guard against diphtheria, of which there were more than 300 cases in this city last year, Dr. A. H. Rockwell, director of public health, urges that every pupil in the public schools submit to the Schick test to determine whether they are susceptible to the disease.

Muskegon—Amos Spaulding, 30, ill in Beckley hospital of pneumonia, attacked his nurse, fought her from his room, then ran downstairs, escaping in his night robe, while crazed from the effects of a high fever. Thirteen minutes later he was found hovering in the cellar of a nearby house.

Grand Rapids—Announcement was made by Bishop E. R. Kelly's office of the appointment of Rev. Fr. Edward LeFebvre of St. Ann's church, Cadillac, and vicar general of Grand Rapids diocese, as pastor of St. James' church of this city, succeeding Fr. Robert W. Brown, recently retired.

Lansing—Of the \$6,761,924 the department of state collected in 1921 from automobile license fees, certificates of title and operators, manufacturers and chauffeurs' licenses, the counties will get back \$3,126,456. In 1920 a total of \$5,754,900 was collected and \$2,737,138 was given back to the counties.

Grand Rapids—The proposal of three of the largest city hospitals to perform operations on indigents for adenoids and tonsillitis for \$17 an operation, including the anesthetic, has been approved by the city commission which has set aside \$400 a month as estimated expense as well as \$7,200 for general hospital expense until May 1.

Grand Rapids—Fire broke out in the pumping station of the Christian Psychopathic Hospital, in Cuthbertville, 10 miles from here, spread to the boiler room and for a time threatened the main structure. Eighty patients were removed without difficulty by doctors and nurses while firemen were extinguishing the blaze. The loss is under \$5,000.

Saginaw—Contention of attorneys for the defendant in an automobile damage suit in which mother was suing daughter was upheld in the Saginaw circuit court, when Judge E. A. Snow ruled that the \$3,000 damages awarded Mrs. Mamie Hemington against her daughter, Ryllis, should be cut to \$2,000 and \$1,000 returned within 15 days.

Lansing—Judge L. W. Carr, in Ingham circuit court appointed Leonard L. Hands, insurance commissioner, receiver for the United States Mutual automobile insurance company, of Bay City. The petition had been filed by the attorney general on a showing by the insurance department that the company's obligations are \$105,553 in excess of its assets.

Iron Mountain—The Oliver Mining Co. has sent a check to the city clerk for its taxes amounting to \$178,922.92. This is the largest single tax that the city will receive and lacks only about \$20,000 of being half of the entire levy. The taxes of the Oliver Mining Co. at Ironwood, amounts to more than \$500,000 this year. This is the largest tax ever paid there.

Flint—Found guilty of accusations made by a young Flint woman, Ernest Lafleur was sentenced by Judge E. D. Bickel to spend from 5 to 10 years in Jackson Prison. Lafleur with pal representing themselves as officers forced two young women into their automobile on the pretext that the women had violated the motor vehicle laws. Instead of taking them to police headquarters, Lafleur drove to the country where the girls were attacked.

Battle Creek—Camp Custer has been selected by Secretary of War John W. Weeks as garrison and training camp for the Sixth army corps area. Official announcement to this effect was contained in a telegram received by Lieutenant J. B. Canfield, quartermaster in charge of the camp. The selection for the area comprising Michigan, Wisconsin and Illinois, follows several weeks' uncertainties. Camp Custer will receive a permanent garrison of 8,000 troops. During the summer the number will be increased to 5,000.

Lansing—Representatives of religious denominations maintaining parochial schools met with Thomas R. Johnson, superintendent of public instruction, to perfect plans for the supervision of their schools under the Dacey act. Arrangements have been made under which each of the denominations will have a district or state superintendent in charge of its schools, with whom the state can deal. Reports will come to the superintendent of public instruction through these officers, and general policies of parochial school teaching.

ders Were Committed.

Lansing—Three hundred and three more convicts were paroled in 1921 than in 1920, according to a report issued Jan. 19 by Fred E. Janette, state commissioner of pardons and paroles. The total of paroles granted in 1921 was 1,548. In 1920 it was 1,245.

Of the 1,548 paroles granted last year, only three were for lifers. In 1920, the life terms of 33 prisoners were committed by Governor Sleeper, to take immediate effect, and the terms of four other lifers were committed to take effect at future dates.

According to Mr. Janette's report, the prison population in Michigan has greatly increased during the past year, the total number of prisoners received at the four state penal institutions in 1921, was 2,286, and in 1920 it was 1,625. The net gain in prison population in 1921, was 738.

The most frequent crime committed in this state in 1921, the report states, was larceny, with violations of the liquor laws running a close second. Five hundred and eleven convictions were charged to the former offense and 403 to the latter. There were 41 first degree murders committed, 13 second degree murders and 11 assaults with intent to murder.

In 1921, Wayne county received 412 paroled prisoners; Kent, 84; Genesee, 56; Ionia, 55; Ingham, 40; Jackson, 31; Oakland, 33; Calhoun, 28; Bay, 24; Saginaw, 24; Muskegon, 24; Shiawassee, 14 and Washtenaw, 13.

The known number of violators of parole in 1921 was 259 and 108 of these violators committed new crimes. The report declared that it is impossible, at this time, to make any definite statement regarding the number of parole violations in proportion to the number of paroles granted. It has been the general estimate of parole officers that from 80 to 90 per cent of paroled prisoners make good. In the opinion of Mr. Janette, however, this estimate is much too high.

## DIVER SAVED BY QUICK WORK

Port Huron Water Chief Rescued  
From Bottom of River.

Port Huron, Mich.—Lawrence E. Moore, superintendent of the waterworks plant, had a narrow escape from death on the bottom of the St. Clair river, while encased in a diving suit.

Moore, with William Thompson as tender, donned the suit to inspect the mouth of the intake pipe, which is in 20 feet of water and 40 feet out into stream. While at work his diving suit was punctured by a jagged piece of waterlogged timber. Moore pulled the emergency signal and was hauled to the surface with his diving suit partially filled with water.

## FIX INTEREST RATE ON BONDS

Refunding Bill on Allied Debt Pro-  
vides for 4½ Interest.

Washington—Senate Republicans, in party conference, have approved the Allied debt refunding bill, with the addition of a provision that the interest rate on the refunded bonds should not be less than that fixed in the Liberty loan acts authorizing the loans to the Allied nations. This rate is 4½ per cent or ¼ of 1 per cent less than the rate stipulated in the obligations of the debtor nations now held by the treasury.

This was the only change in the bill as reported by the finance committee and which the conference approved.

## WIDOW DECLARED DELINQUENT

Judge Sends 16 Year Old Widow to  
Industrial Home.

Marshall, Mich.—Michigan's first widow to go to the State Industrial Home for Girls at Adrian is Mrs. Clara Brandenburg, who on her sixteenth birthday, entered the institution. She was declared a delinquent minor by Judge Blaine Hatch in Juvenile Court here Jan. 19.

Mrs. Brandenburg was taken in a recent raid in Battle Creek. She said that she was married when she was 14 years old and that her husband died a year ago.

Ex-Stenographer Now Pullman Head  
Chicago—Edward Francis Carry, president of the Haskell Barker company, of Michigan City, Ind., recently purchased by the Pullman company, became president of the combined concern. The new organization makes the Pullman company, officials say, the largest manufacturers of passenger and freight cars in the world. Mr. Carry, who is 55 years old, came to Chicago from Fort Wayne, Ind., at the age of 21, as a stenographer for Wells & French, car builders.

## Charge Wrong Foot Operated

New York—Accused of having operated on the wrong foot of a club-footed child, Dr. Samuel Kleinberg, Brooklyn surgeon, has been made defendant in a suit for \$100,000, filed by David Engel, father of the patient. The error, Mr. Engel stated in his petition, was discovered after the operation. His daughter, he added, had the use of one foot before, and now is crippled in both feet. Dr. Kleinberg is alleged to have admitted the error, but denied it injured the good foot.

Rene Maran, a negro official of the French colonial administration, has been awarded the Prix Goncourt for 1922 for his novel "Batonla" which exposes conditions of negro life in French Africa.

## UNPATRIOTIC HISTORY BARRED

Battle Creek Doctor Charges It Is  
Pro-British and Un-American.

Battle Creek—Following charges made by Dr. Wilfred Haughey, a World War veteran, that a history in use in the Battle Creek schools and written by a professor of the University of Chicago and a professor of the University of Michigan, is unfair and un-American, it has been announced that the Battle Creek public schools are substituting another work.

Dr. Haughey said that under the guise of eliminating "fairy stories," the names and deeds of Nathan Hale and Molly Pitcher had been eliminated, that Alexander Hamilton and Patrick Henry were sneered at, that John Hancock and John Adams were referred to as smugglers and cowards and that the American colonists were mentioned as "opportunists," who struck at England when that country was engaged in other wars.

## NO TAX ASSESSMENT IN TOWN

Plover, Wis., Has Paper Mill Which  
Pays All Town's Expenses.

Stevens Point, Wis.—Enter Plover, Wis., the town with the model tax rate. It will be .0000.

A man owning a \$10,000 farm will pay just nothing in taxes this year. The millenium in taxation, toward which D. H. Parks, chairman, and his associates have been working five years, has been reached.

The total sum needed to take care of the town's expenses for its own government, including \$3,000 for roads, and county taxes, is approximately \$24,000. That amount was set aside for the town board of audit from the receipts of income taxes paid mainly by the Wisconsin River and Whiting Plover paper mills.

## CARDINAL GASPARRI AT HEAD

Papal Secretary of State Administers  
Holy See Temporarily.

Rome—Arrayed in full ceremonial, with golden mitre, gloves and ring, the body of Benedict XV, on Monday laid in state in the throne room, on the floor immediately below the apartment in which he died. Cardinal Gasparri, the papal secretary of state, will administer the Holy See during the interregnum.

The official and semi-official Vatican organs give 6 o'clock Sunday morning as the time of the pope's death, and the Rome newspapers do likewise.

## IRISH FACTIONS IN BORDER PACT

Sein Fein and Ulster Agree to End  
Money Boycott.

Dublin—The agreement between Michael Collins and Sir James Craig, the Ulster premier, concerning the boycott and the boundary between north and south Ireland, although it had not been expected at this stage of the situation, has been welcomed in Dublin as the first step toward Irish unity.

## NAVAL RADIOS FOR DISPATCHES

Newspapers Granted Unrestricted Use  
of Facilities for Five Years.

Washington—Unrestricted use of naval radio facilities for five years, or until June 30, 1927, is accorded American newspapers and press associations under the terms of a bill favorably reported to the senate by the naval committee.

## \$4,000,000 Medical Supplies to Russia

Washington—The senate has accepted the house substitute bill authorizing President Harding to turn over surplus army medical supplies not exceeding \$4,000,000 in value to relief organizations for distribution in the famine districts of Russia. The bill goes to the president. The original senate measure, which is superseded by the bill, set no limit on the amount of supplies affected. The supplies must be transferred under the bill within four months.

## Doctors Split on Liquor Question

New Orleans, La.—Answering the questionnaire sent out recently by the Journal of the American Medical association, 199 physicians in New Orleans and Louisiana voted that whiskey was of medicinal value, while 173 were recorded against it. The division on the question of whether beer contained medicinal properties was 109 for and 286 against, on wine 148 for and 131 against. Sixty-nine physicians said prohibition had caused "unnecessary suffering or death."

## Charlie Chaplin Lost \$100,000

New York—Charlie Chaplin, motion picture comedian, had a credit balance of approximately \$100,000 with the stock brokerage firm of E. W. Wagner & Co., when the concern was forced into bankruptcy on Dec. 30. This was divulged in connection with the proceedings of the protective committees which have been formed for the benefit of customers of the bankrupt concern.

## Pays Rent on His Own Land

Grand Rapids—After paying his neighbor rent for 10 years on a 40-acre farm adjoining his own, and which he had been using, Mathias Weber of Sparta township has discovered he not only owns the property, but has been paying taxes on it during the decade. The situation was not revealed until the neighbor, G. F. Bates, attempted to sell the land and found he did not possess title to it.

## Too Many Officers, Says Pershing

Washington—The army has too many officers of the higher grades and not enough second lieutenants, Gen. John J. Pershing, chief of staff, told the House Military Affairs Committee. Pershing said that this condition had been brought about by too rapid promotions in the lower grades. He recommended that there be a "weeding out" in the higher grades to keep the Army officer list from becoming "top heavy."

## Actress Gives Home to Nuns

New York—Maude Adams, Protestant actress, has given her \$130,000 country estate at Lake Donkonkoma, L. I., to the Roman Catholic sister of Our Lady of the Cenacle. Miss Adams, who has not appeared on the stage for several years, became interested in retreats conducted by the sisters for secular women, and while in this city, was accustomed to stay at the convent of St. Regis on West One Hundred and Sixtieth street.

## Stillman Seeks Divorce in Paris

New York—No sooner did Mrs. Anna C. Stillman return from the Canadian woods with evidence which, she says, would refute claims of her son Guy's illegitimacy than New York was stirred by the rumor that her husband, James Stillman, was on his way to Europe. It is reported that Stillman intends to get a quick divorce in Paris so he can marry Flo Leeds, mentioned prominently in the case.

## Millions of Tons of Food Needed

Washington—Europe needs millions of tons of foodstuffs, according to a survey of the Department of Agriculture. The survey was made by G. F. Warren and W. F. Collander, who have just returned from European countries. Germany, it is estimated, will require 2,000,000 tons of imported food before the next harvest. Czechoslovakia, Austria, Italy and France also are said to be looking to America for huge quantities.

## Pastor Relinquishes to Hang Convicts

Des Moines, Iowa—The Rev. W. E. ## PONTIFF HAD BRIEF REIGN

Elevated to the Papal Throne in 1914,  
His Life Was Saddened by the Atro-  
cities of the Great War—Or-  
dained Priest in 1874.

Rome, Jan. 21.—Benedict XV, the 258th sovereign pontiff of the Church of Rome, died late today at the Vatican. The end came after a day of extreme agony and delirium, relieved at times by merciful periods of sleep.

At one time during the day there was slight hope that the pope might survive, as he lapsed into apparently restful and refreshing slumber. This hope was shattered later when, on awakening, there was a return of pain and suffering.

He had lapsed into delirium earlier in the day and failed to recognize any one at the bedside, and during the early hours of the forenoon death was expected within a few hours.

The pope was in extreme weakness and restless.

Lying with closed eyes, he murmured "Peace, peace," evidently alluding unconsciously to the great mission of the pontificate in war time.

## Tragic Scene at Dawn.

Other undistinguished messages fell from his lips from time to time, but his vitality had sunk so low that he spoke in the weakest of whispers.

The day dawned upon a tragic scene at the Vatican. The papal court joined

Pope Benedict XV.

the cardinals in prayer. Outside in the piazza of St. Peter's a crowd of reverent men and women, mostly kneeling with faces heavenward, uttered their supplications for the recovery of the Holy Father.

The four attending physicians did all in their power to relieve his sufferings, but they could hold out no hope for ultimate recovery. The strain was telling on all. In the afternoon off the sick-chamber high prelates of the church, faces drawn with the agony of their sorrow, prayed without cessation.

## Suffers Great Pain.

At 8 a. m. the Holy Father was still breathing, but was in great pain and suffering agonized contractions of the throat. A brief bulletin was issued saying: "His holiness is weaker. The symptoms of pneumonia have extended."

By this time all hope had been abandoned and the most optimistic of the Vatican entourage had come to realize that the end was a matter of hours if not minutes.

## Realizes Approach of End.

When the pope lost consciousness late Friday afternoon the attending physicians did not hesitate in expressing their fears that death was at hand. The pope had been sinking all day, due to inflammation of the lungs and weak heart action, but had retained consciousness. When he sank into a state of coma, after many hours of patient endurance, all preparations had been made and all pre-death ceremonies completed.

Shortly before noon the Vatican announced that the pontiff had requested the last sacraments, realizing that he was dying.

Throughout the afternoon he was kept alive by use of oxygen and artificial heart stimulants. At night the four physicians at the pontiff's bedside administered these restoratives at frequent intervals.

Shortly after noon Mr. Zampani administered the last sacrament.

Cardinal Merry Del Val, who, as cardinal chamberlain, assumes papal

Possibility of Amicable Settlement of  
Dispute Between Nations of  
Chile and Peru.

Santiago, Chile, Jan. 21.—Acceptance by both Chile and Peru of the United States government's invitation for them to send representatives to Washington in an attempt to reach an agreement regarding execution of the unfulfilled clauses of the treaty of Ancón has revived interest here in the ne-

gations until a new pope is elected, assumed permanent residence at the Vatican.

Cardinal Giorgi began recitation of the prayers for the dying at 10 o'clock Friday morning. This was the official beginning of the grand penitentiary ceremonial.

At 11 o'clock official notice of the grave condition of the Holy Father was sent to the Italian government. Cardinal Gasparri was notified as soon as it was ascertained that the condition of his holiness was critical. The cardinal, in tears, hurried to the bedside of the pontiff.

When the papal secretary of state arrived the pope was resting tranquilly and immediately requested that the last sacraments be administered. His holiness was conscious and calm as Mr. Zampani read the ceremony. The pope then continued fully conscious, but owing to his weakened condition, only a small drop of holy water was placed on his tongue. The few cardinals gathered about the pontiff's bedside recited the Psalms in subdued tones while the ceremony lasted.

The grand penitentiary of the sacred college, surrounded by assistants, then approached the bedside and read to the pontiff the profession of faith as formulated by the Vatican and the Trent councils.

## Monks Recite Formulas.

Cardinal Giorgi, after reading the profession of faith, gave to the pontiff the absolution in articulo mortis. As though to impress on every one within hearing the solemnity of the occasion, the words of the formula were pronounced slowly.

The heads of all the various religious orders in Rome then entered the sick-chamber. One by one they bestowed on the pope the indulgences of the various orders which each represented.

Throughout the ceremony a profound silence pervaded the room, which was broken only by the low voice of each aged monk as he recited the formula for his order.

Following the ceremony the procession slowly returned to the Basilica of St. Peter. Only the domestic prelates, whose duty it

Mrs. A. L. Anderson of Traverse City Installing Officer.

The Womens Benefit association of the Macabees held a public installation of officers and their annual banquet at the I. O. O. F. Temple Friday evening of last week. A large number witnessed the installation ceremonies, the work being put on by the local drill team, with Mrs. J. H. Horan as captain. In their red cross uniforms they looked most attractive and their part in the ceremonies was carried out in a splendid manner, they receiving much praise for their work. Mrs. A. L. Anderson of Traverse City was the installing officer. After installation the members and those who were invited to be their guests for the evening enjoyed a banquet, the tables being very prettily decorated with flowers for the occasion. Grayling review presented Mrs. Anderson, installing officer and the members of the drill team with bouquets of carnations. Everyone present enjoyed the evening very much.

## TOWNSEND LOGICAL SENATOR, HE SAYS

W. J. SMITH TELLS PRACTICAL REASONS FOR RE-ELECTING JACKSON MAN.

**KEEPS STATE HIGH AT CAPITOL**

"Change Would Exchange Experience for Inexperience, Lose Years of Prestige," He Declares.

Detroit—"Michigan cannot afford to exchange experience for inexperience, influence for lack of influence, in the vitally important office of United States senator at this vitally important time," said William J. Smith, of Battle Creek, state chairman of the Townsend Senatorial Committee here today, in discussing the organization of the Townsend campaign for re-election. "This is the practical business reason, aside from any reason of friendly preference, why I am for the re-election of our senator, Charles E. Townsend. "No man without legislative experience of similar character could in ten years attain to the influence which it is now conceded Charles E. Townsend holds in the United States senate, though the other man possessed equal capacity and ability.

**Heads Important Committees.**

"Senator Townsend is today the head of one of the few great committees of the senate, the Committee on Postoffices and National Highways. Michigan has a proper pride in the part which she thus takes in the handling of great national matters. Senator Townsend also is second member on the Committee on Interstate Commerce, and is, more than any other member of the senatorial body, identified with the Lake-to-the-Sea project, which means so much to the farming and industrial centers of the Middle West.

"These positions of influence have come to Senator Townsend through time and experience in service and by the proof of his worth which his associates in the senate have recognized.

"Senator Townsend has a wide acquaintance among the officials of the government. Senators of the opposition party, as well as of his own party, hold him in high personal regard and respect his ability and integrity. No man in the senate enjoys more largely the confidence and friendship of the President of the United States than does the senior Senator from Michigan.

**Candidate of All the People.**  
 "Senator Townsend is not the candidate of any clique, faction, class or organization. His service has been for all the people, impartially, and his candidacy broadly appeals to all, independent of class.

"Those who are active in the Townsend campaign believe their efforts are more in the interest of Michigan and of the nation, than of Senator Townsend personally and that an exchange of his experienced, capable service and influence for an untried and inexperienced representation in the senate would be foolish to the point of disaster.

"Senator Townsend's record as a Senator, and his fine personality, which typifies decency, integrity and character, appeal strongly to the opinion of the State. It is peculiarly true of Senator Townsend that he is 'just folks.' His experience gives him a strong sympathy with the general viewpoint of our citizenship. When he was 21 years of age he was working on a farm, earning \$300 a year with which to finance his education. His position in national affairs has been won through courage and constancy and a preference for service rather than personal gain or notoriety.

**Endorsed By Unselfish Citizens.**  
 "A significant thing about the campaign for Senator Townsend's re-election is that his most enthusiastic supporters in every county are men who desire no political offices for themselves and have no favors to ask for their friends. Men of standing and character throughout the state who have no interest in politics but the interest of good government, have asked to be put to work in the Townsend campaign with the view of helping Michigan preserve the advantage which she has in the senior senator's ability and in his long service and experience.

"The Senator's campaign is being established in all confidence. No question is felt as to the outcome and there is complete willingness on the part of his supporters to analyze the declarations and meet the challenges of any opposition which may arise, no matter what its source. We feel entirely certain that the people of Michigan are not ready to surrender their prestige and influence in national affairs, gained through many years of able service, and accept a minor place in the councils of the nation."

**TOWNSEND PETITIONS OUT.**

Petitions for the nomination of Charles E. Townsend, of Jackson, as Republican candidate for United States Senator, to succeed himself, are being circulated in every township and ward in the state, according to a report from Detroit. Republicans in all sections are to be given the opportunity of attaching their names as soon as possible.

**CONSTIPATION.**

Constipation of the bowels is a stoppage of the sewerage system that removes waste matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste, as it is that the waste pipes of your home be kept open and carry off the waste from the house. If you would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed.

**"JUST A LOVE NEST"**

Covered With Reinforced Stucco Because It Is Economical, Pleasing in Effect, Weather and Fire Resistant.

This little house is a regular love nest. It has that most desirable feature—individuality. It does not look as though it were built in long rows by a contractor, but that it was planned for a regular home by intelligent people. With the proper surroundings in the way of trees and shrubbery, this little home is a constant delight. The plan is so well arranged that house-keeping will not be difficult without a maid.

In planning a heating system, it will not be necessary to excavate the whole basement, the one chimney being so situated that it will care for the kitchen as well as the furnace underneath. The cellar stairway leads down from the kitchen and there is a stairway leading up from the rear bedroom to the half-story overhead, and the problem of storage is thus cared for very nicely.

The whole exterior is stucco and reinforced with triangular mesh, galvanized steel which laps around the corners, making a very solid and substantial house which will never crack.

# Truth is Mighty and Shall Prevail

The universal popularity of *Studebaker Cars* is attested by the fact that the corporation enjoyed the biggest business in its history in the year of 1921.

The sales of *Studebaker Cars* were 29% greater than in 1920, notwithstanding the fact that the total number of cars sold of all other makes (except Ford) was 40% less than in 1920. Stated otherwise, Studebaker's ratio of sales was 129 and the total of other makes 60, as compared with 1920.

The number of *Studebaker Cars* sold in the year of 1921 in both Greater New York and in the Metropolitan District exceeded the sales of any other make except Ford.

Studebaker is the world's largest producer of six-cylinder cars.

The only possible explanation of the popularity of *Studebaker Cars* lies in their quality, durability and dependable performance in users' hands. Proof that the cars stand up in service with minimum repairs is evidenced by the fact that our sales of *Repair Parts* in 1921 were 12% less than they were in 1919, notwithstanding that 118,000 new cars were sold and put in operation in 1920 and 1921. Based on the total estimated number of *Studebaker Cars* in operation in 1921, we sold \$16.00 worth of parts per car for repairs from all causes, including accidents.

The materials and workmanship in *Studebaker Cars* measure up to the highest standards known to the automobile industry. Substantially better intrinsic values cannot be obtained at any price. The theory that high prices necessarily mean fine cars is fallacious, simply because prices are not based upon intrinsic values but upon production costs of individual makers, which vary widely according to their ability and manufacturing facilities. Obviously, high costs of production, inevitably arising from incompetence or inadequate manufacturing facilities, mean not only high prices but actually inferior cars.

With \$70,000,000 of actual net assets including \$36,000,000 of plant facilities, Studebaker stands unsurpassed in ability and resources to *manufacture economically* and give the greatest *intrinsic value* possible for a given price.

Mrs. George McPeak and son R. J. returned Monday from Mackinaw where they spent a few days visiting Mr. McPeak, who is employed for the M. C. R. R. there.

Miss Ruth Woodruff visited her sister Mrs. Clarence Brown over Sunday. Everett Buchanan also of Bay City visited at the Brown home for a few days.

Mrs. W. J. Heric gave a surprise party in honor of the birthday anniversary of her husband Tuesday evening. She invited in a number of couples and cards were enjoyed.

George L. Tessey, a well known Buffalo mechanic, said he had gained twelve pounds; his wife had gained twenty-six pounds and his daughter was gaining every day by taking Tanlac. A. M. Lewis, druggist.

Mrs. Einer Rasmussen, who has been visiting at the home of her parents and other relatives since before the holidays, returned Friday of last week to her home in Monroe. Her mother, Mrs. Adam Gierke accompanied her home to be her guest for a few days.

If you are interested in the regulation of our trout streams and fishing laws, come to the meeting at the court house next Monday evening at 7:30 o'clock. This is important to every person in the county who likes to fish trout. Be sure to be there and bring your friends also.

Remember we are all going to save the evening of February 22 for the Charity Ball for the benefit of the Hospital. There will be good music with a saxophone player from Fisher's orchestra, also a fine lunch for those who desire it. \$1.00 pays the bill for the dance.

Mrs. Matilda Sparkes was hostess to the "B" Suite "500" club at the home of Mr. and Mrs. Lorane Sparkes Tuesday evening. Mrs. Will Havens held the highest score and consolations were awarded to Miss Jennie Ingley. Late in the evening Mrs. Sparkes served a delicious lunch.

Our high school boys and girls basketball teams played the Alba school teams in that town last night, our girls losing by a score of 25 to 7, and our boys losing by a score of 19 to 12. The report of the school games played here last week Friday night against East Jordan may be read in the school notes.

During the heavy bluster early Sunday morning the shaven bin of the Kerry & Hanson Flooring Co., adjoining the fire room of the plant took fire and it was necessary to sound an alarm of fire. Although the building is concrete the big wooden doors that lead to the bin were burned and the roof also slightly damaged.

Mr. and Mrs. Wilhelm Rase on their return from a visit in Detroit found themselves snowbound when they got to Gaylord, Monday and so returned here to visit Mrs. Rase's parents until they would get a train thru to their home in Johannesburg. There had not been a train thru to Johannesburg since Wednesday of last week.

Miss Laura Thompson, primary teacher in the local schools has asked for leave of absence owing to the illness of her mother, at Twinning, Mich. Miss Thompson expects to leave Saturday for her home. During her absence her place will be filled by Mrs. Irene Chinnock, who last summer received a Life certificate for teaching at Ypsilanti Normal, and just finished a semester of teaching at Monroe.

The Bridge club opened their season for the winter at the home of Mrs. Esbern Hanson on Saturday Jan. 14. There were 16 ladies present and every one had a fine time. Mrs. E. W. Behlke held shore. On the following Saturday Mrs. A. M. Lewis opened her home to the club. The ladies spent a most enjoyable afternoon. Mrs. Holzer Peterson was head lady. The meetings will be held regularly on Saturday afternoons. At the end of the season the winners will be entertained by the losers.

Emmett C. Reel of Chicago arrived in the city last week, and intends to take up his residence here. He has taken the agency for the Michigan Mutual Life insurance company covering the territory from Gladwin to Mackinaw. He intends to purchase a home here in due time. For several years Mr. Reel has owned property in Crawford County and he says that he has always felt a live interest in this region. For several years he has been a regular subscriber to the Avalanche.

Tony Larson is serving ten days in jail for being drunk Friday night. He came to the Basket ball game that night in an intoxicated condition and was forcibly ejected. A complaint was filed Saturday morning by Supt. Smith. When questioned as to where he obtained the liquor he replied that he found a quart and a half in a can in a snowbank near the Michigan Central depot. The officers did not believe his story and there was some talk of arresting him again for contempt of court.

There was a nice attendance at the social affair given at the Michelson Memorial church last evening. An admission price of 5 cents a foot was charged, and same amount for fractional part of a foot, consequently everyone had to pay 30 cents each. The evening was spent in music, and contests of several varieties. Principal of these were an advertisement guessing contest the prizes being won by Dr. C. A. Canfield and Rev. C. E. Doty. A spelling contest was not one of the least attractions. For this T. P. Peterson and E. W. Behlke were chosen captains and each chose 12 spellers, the sides spelling against each other. T. P.'s side was the loser all of his members being seated except Miss Ewing before a single one of Mr. Behlke's side lost a member. After Miss Ewing was eliminated there were 6 spellers on the opposite side and Emil Giegling was the star speller. The group, the spelling down both groups were other contents and a lot of good wholesome amusement. The ladies served sandwiches, coffee and cake. It was a pleasant evening from start to finish.

Dances at the Home Club Saturday night. Everyone cordially invited.

Miss Coletta Smith, M. C. ticket agent, is in Saginaw for a few days on business.

Mrs. James Hanson is ill at her home, Peninsula avenue with an attack of appendicitis.

Basket ball tonight—West Branch All City vs. Grayling Independents. Prices 15 and 25 cents.

Mr. and Mrs. Eugene Ayotte were called to Bay City Monday by the death of the former's father.

O. A. Hilton will leave tonight for Detroit, where he will be joined by his parents, Mr. and Mrs. A. H. Van Dusen of Gaylord, and together they will attend the Furniture show to take place in Grand Rapids.

Mr. and Mrs. William Thompson returned to their home in Standish Tuesday after a week spent in Grayling guests at the home of Mr. and Mrs. Harvey Wheeler. Mrs. Thompson and Mrs. Wheeler are sisters.

Mrs. Val Klumpp of Pinconning underwent an operation at Mercy hospital Saturday morning and is getting along nicely as the result. Mrs. Klumpp was formerly Miss Anna Angers of this city. Her mother Mrs. Thomas Angers, who accompanied her to Grayling remained over the operation. Mrs. Klumpp is also a sister of Sister Mary Beatrice, of Grayling Mercy hospital.

This region is having some real winter these days. A heavy snow last Saturday night accompanied by some wind, made life miserable for some of the railroad men. All trains were late. South bound train due in Grayling 12:55 a. m. Sunday arrived about 16 hours later. The early morning train from the south arrived nearly 14 hours late. Trains from all directions were way off schedule time. The train crews got the lines plowed out and by Monday everything was nearly normal again. Then the temperature began to drop. Tuesday night it reached 17 below, according to the official government thermometer at the Military reservation. Last night, (Wednesday) it reached 19 below, and at 6 o'clock this morning it was 6 below. The highest degree it has reached this week is 12 above 0.

Henry Joseph of Milwaukee arrived in Grayling Wednesday afternoon to spend a few days with his mother Mrs. Rosa Joseph. Mr. Joseph is vice president of the Joseph Sanitary Rug company of Milwaukee. These floor coverings are of rubber and made in many pleasing designs, and are the invention of Mr. Joseph. He says that they are now turning out about 600 rugs a day and orders are coming in faster than they can be filled. Among the new designs of rugs is one to imitate grass rugs, and are much more durable and lasting than the genuine and are strictly sanitary. These products, says Mr. Joseph, are in great demand from hospitals as well as private homes, clubs, offices, and other places. Later they intend to open a branch sales office in Los Angeles, California of which he will take charge.

The Danish gymnasium which has been vacated for some time is being closed up—the windows boarded and doors fastened. It came to the attention of the Danish congregation recently that the building had been entered and the gymnasium equipment been literally destroyed by children, who went there to play. Most all of the windows were broken by boys presumably, and others must have used a hatchet to chop tables and chairs with. The Danish congregation at a special meeting held last Thursday evening protested strongly to the building being so misused. Mr. R. Hanson holds the biggest interest in the building and the congregation felt that they must at least protect his interests. It is to be regretted that as soon as a building becomes vacated children are allowed to break the windows and otherwise destroy the property. The congregation warn anyone hereafter not to trespass on the property.

TO THE TAX PAYERS OF GRAYLING.

You poor devils that work hard and can hardly make a living have to scrape and save every cent to pay your tax. Do you know that your village council voted one thousand dollars of your good tax money to pay the band. Have they any authority to use our tax money in this way? Can they vote our tax money to pay private individuals or concerns. Don't you think it time to look into the way our tax money is thrown out? Probably you are flush with cash and don't care, but that's not the way with me. I have to work for what I get, and if any charitable concern wants help let them come to me. I don't need any village council to donate my good cash in that line.

E. G. Shaw, A Tax Payer.

AMERICAN LEGION OFFICIALS TO VISIT GRAYLING FEB. 15.

Board of Trade and Legion Will Give Banquet in Their Honor.

Grayling is to be favored February 15 by a visit from Paul A. Martin, department commander; Lyle D. Tabor, department adjutant, and Dr. M. D. Broderick, legion welfare officer of Michigan.

In the afternoon they will meet with the legion for the discussion of matters of interest to the ex-service men. In the evening they will be the guests of the local Legion post and the Grayling Board of Trade at a 6:00 o'clock banquet at the latter's club rooms. Arrangements are being made with the Danish Ladies Aid society to serve the banquet, which is an assurance that this feature will be of the highest order.

The seating capacity will permit of serving about 100 persons and there is no doubt but that there will be that many who wish to attend. The visitors have a number of things they wish to tell the people of Grayling, and an evening of interest is assured. Further information regarding details will be announced in the Avalanche in a later edition.

GOODFELLOWSHIP CLUB NOTES.

The regular meeting was held at the home of Mrs. M. Hanson. Study, "Art in the Home." Roll Call—Quotations from the "Good Word Study." The House Exterior—Mrs. Schumann. The House Interior—Mrs. Larson. "Painters of American Home Life." Mrs. Canfield. Leader—Mrs. Canfield.

WILL GIVE CARD PARTY FOR BENEFIT OF MILK FUND.

The Goodfellowship club and Womens club will give a card and sewing party at the High School gymnasium, Friday evening, February 3, at 7:30 o'clock for the "Grayling Schools Milk Fund."

For those who do not wish to play cards there will be a cozy corner provided to visit and sew. Refreshments will be served. Come and bring your friends.

Bridge, "500", Pedro.

Admission 50 cents.

In order that the public may more fully understand about the Milk fund. The money that is sent by individuals, clubs and societies is the only way we have to keep this fund up. No tax is asked. Every pint of milk is paid for by the individual that gets it if possible. Your money pays for some child, who cannot pay and wouldn't get milk otherwise.

DON'T FEAR ASPIRIN IF IT IS GENUINE

Look for Name "Bayer" on Tablets, Then You Need Never Worry.

To get genuine "Bayer Tablets of Aspirin" you must look for the safety "Bayer Cross" on each package and on each tablet.

The "Bayer Cross" means true, world-famous Aspirin, prescribed by physicians for over twenty-one years, and proved safe by millions for Colds, Headache, Earache, Toothache, Neuralgia, Lumbago, Neuritis, and for Pain in general. Proper and safe directions are in each unbroken "Bayer" package.—Advertisement.

REASON IN THIS ARGUMENT  
Also Miss Katie Might Have Discerned Something Strange Suspiciously Like a Compliment.

A faithful old servant in a southern family has recently become a grandmother. "What does Libby call her new baby, Mandy?" the old woman asked.

"She named her 'Gabrielle,' miss-after you."  
"Why, the idea, Mandy. You know my name is not Gabrielle. You've called me 'Miss Katie' all your life."  
"Yes, miss, but I know that. But when it comes to naming babies after folks, it ain't what they is called it is what they is like that you names 'em for. You shoudly is 'em like 'Miss Gabrielle' dan you is like 'Miss Katie.' Jes, like Libby says."

Acceptable Advice.  
"You get a great deal of gratuitous advice from your constituents, I dare say."  
"Oh, yes," replied Senator Shortworth.

"Occasionally. Some of the most enjoyable vacations I ever had were taken at the suggestion of constituents who thought I was overworked."

## Many ambitious men and women live only half a life—and don't know it

No person whose nerves are continually irritated, whose appetite and digestion are disturbed, or who doesn't sleep well has more than half his normal chance for success in life. For weakness, debility, anemia and general lack of tone are a serious handicap to anybody.

Those who drink tea or coffee are often sufferers from these conditions. Tea and coffee contain caffeine, a substance which has a decided stimulant action on the nerves and brain cells.

Each cup of strong coffee contains about as large a dose of caffeine as your doctor would ordinarily give to a very sick person.

You can readily see that the effect of giving this stimulant regularly to a well person might finally have a tendency to make him sick.

If you want to avoid a very common cause of irritation and enjoy restful sleep, good digestion, and all the feeling of vigor and robust endurance that comes to healthy, normal people, quit tea and coffee, and drink Postum, instead. It is a rich, coffee-like cereal beverage—perfectly delicious!

Order Postum from your grocer today. Drink this fragrant, aromatic beverage and see how much better you'll feel—able to do more without becoming fatigued—as thousands have discovered for themselves.

Postum comes in two forms: Instant Postum (in the form of a powder) and Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared), made by boiling for 20 minutes. Sold by all grocers.

## THE AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service)

IN ARMY AT THE AGE OF 14

Stephen S. Tillman of Washington Now Sergeant-at-Arms of George Washington Post.

Stephen S. Tillman, Washington, D. C., served as a private in the army during the World War at the mature age of fourteen years. He was regularly enlisted and sworn in and didn't have to lie about his age.

Just before he went to the recruiting office he cut the numerals "18" out of a calendar and pasted them in the heels of his shoes. When the recruiting officer asked him how old he was, Tillman replied: "I'm over eighteen." They swore him in.

Being a trifle smaller than a regulation army rifle, he was detailed as a bugler. He went to the Mexican border with his company, "B" of the Third D. C. Infantry. Coming back from the border as the United States entered the World War, he did guard duty along Conduit road, Washington, where several hundred attractive young women were taking an intensive training course. But he was only sixteen years old then.

Now he is sergeant-at-arms of George Washington Post No. 1 of the American Legion, Washington, the first Legion post organized. His father is a retired cavalry officer.

THE TRAYLOR FAMILY HELPED

Father, Mother, Four Sons and Two Daughters in Uniform During the World War.

When the old question of "who won the war?" comes up, the Traylor family of Trenton, Mo., may step forward and admit that they helped. The commanding officer of the family that was 100 per cent in active service was the father, W. S. Traylor, rank-private.

Mr. Traylor, his wife, four sons and two daughters were all in uniform. When war was declared, Mr. Traylor closed up his general store, donned the uniform of a truck private in the quartermaster corps and did his bit well, despite his fifty-three years. Mother and the sisters were on active duty with the Red Cross.

Of the four sons, Charles was with the Eighty-ninth division and was wounded. Frank was an aviator. Orville served with the adjutant general's department and Roy was with the Thirty-first railway engineers.

JUMPING BEANS FOR GIRLS

Sick and Wounded Veterans in New Mexico Hospitals Are Hungry for Cheer Letters.

Trained to leap through hoops and stand unhit, thousands of genuine Mexican jumping beans are awaiting girls of the United States who will write a little letter of cheer to a disabled soldier. The exchange of letters for jumping beans is being made through Herman G. Bora, Santa Fe, N. M., adjutant of the American Legion of the state.

Five thousand sick and wounded veterans of the World War, recuperating in hospitals in New Mexico, have trained the beans. The young men are terribly lonesome, Mr. Bora writes, and they will send a bean to every girl who will write a letter to them. The jumping beans are dark brown, somewhat larger than the ordinary bean. The animation of the vegetable is caused by a tiny worm that crawls into the bean and consumes the edible portion. After the worm is dead, the bean keeps on jumping.

Presidents as Military Men.

More than half of the presidents of the United States have held some military rank, according to The American Legion Weekly. Of the whole line of twenty-eight presidents sixteen were military men, and of the succession following the Civil War Grant, Hayes, Garfield, Arthur and Harrison were generals; Roosevelt was a colonel and McKinley was a major.

Unto the End.

"How's this?" asked the lawyer. "You've named six bankers in your will to be paid-bearers. Of course, it's all right, but wouldn't you rather choose some friends with whom you are on better terms?"

"No, judge, that's all right. Those fellows have carried me for so long they might as well finish the job."—American Legion Weekly.

City of Verdun Medal Approved.

Approval of the medal to be presented the City of Verdun by the United States has been given by President Harding. Designed by John Flannagan, New York, the obverse shows two struggling giants and the reverse depicts the city as seen through Port Chaussee. "Is no passport pass" is on the one side. "From the People of the United States to the City of Verdun" on the other. It was struck off at the Philadelphia mint where government coins are made.

## LEGION WORKER IN CONGRESS

Hamilton Fish, Jr., One of Writers of Preamble to Constitution, Seeks Increase in Compensation.

The preamble to the constitution of the American Legion has been called one of the ablest, most effective and beautiful pronouncements in the English language.

Three men wrote it in St. Louis, Mo., in 1919 and it never has been changed. The men were John Greenwood of Arizona.

Judge Davis of Oregon and Hamilton Fish, Jr., of New York.

Mr. Fish is now in congress helping to put into effect the policies set by the preamble he helped write. He has a bill pending to increase the compensation from \$29 to \$50 for the nurses of blind, legless, armless and totally disabled ex-soldiers. He is an ardent advocate of reclamation of land through irrigation, to encourage ex-service men to take up farming as a vocation.

At Harvard he was captain of the varsity football team. In France he led a company of negro soldiers in the Fifteenth New York Infantry and received the Croix de Guerre for bravery.

GETS FUNDS FOR CLUBHOUSE

Spokane (Wash.) Girl, Post Historian, Successful in Procuring Cash for Comrades' Headquarters.

When the Legion post of Spokane, Wash., needed help in raising funds for a new clubhouse for the city, it turned to a girl holding the uninspiring job of post historian. Miss Myrtle Wilson thereupon made and wrote post history by securing pledges amounting to \$8,000 for the clubhouse.

In addition to writing history, Miss Wilson is advertising manager of the post newspaper, and was a delegate to the Legion national convention. During the war she served in the navy at the government hospital in San Diego, Cal. In a popular contest in the San Diego Legion post she was chosen queen without opposition.

TRIES TO TRACE ARMY SLANG

"Doughboy," "I'll Tell the World" and "Out of Luck," "Old Stuff," New Yorker Says.

If the American "doughboy" who started "I'll tell the world" as a character expression of the A. E. F. took pride in having coined a new expression he was "out of luck," according to Henry Dwight, Yonkers, N. Y., who has been trying to trace army slang to its source.

In relating his uncertain success and asking the assistance of the demobilized world at large, Mr. Dwight declares that each of the three supposed innovations is time-worn.

Referring to the expressions quoted above, he claims that General Custer, the Indian fighter, used "doughboys" in letters to his wife, and that Arthur Young, writer and traveler, announced himself as being "out of luck" when hunting for mail at Dijon, France, in 1789.

"I'll tell the world" remains untraced. It is thought to be very old and verification of this belief is now sought.

Carrying On With the American Leg'on

Government controlled institutions are schooling 90,000 former service men and are directed by the veterans' bureau.

"Legion Park," named after the local post in Bucyrus, O., contains a tree in memory of the unknown dead in the war.

Abraham Krotoshinsky, the "Lost Battalion" messenger who was cited for his deed, has gone to Palestine to accept an offered farm.

A building worth \$25,000 and a pledge for \$100,000 for its preservation have been given Lee C. France, post of the American Legion by the people of Fairmont, Minn.

Twenty-four lodgers were rescued from the burning Y. M. C. A. at Somerville, Mass., by the American Legion, which clothed and lodged them in the post's club.

The success of the Centralia (Ill.) post of the American Legion last summer in giving outdoor dances has led to a series of indoor dances for the winter. The series is sponsored by the post.

A year elapsed after George Reid, Montevideo, Minn., was discharged before his friends discovered that he had the D. S. C. At that time, an artilleryman of the Italo-Bohemian division, continued to fire his piece after being wounded and killed the Germans.

A publisher has been added to the equipment of the McMinville, Ore., fire department. The department had pledged itself as security for a loan when the American Legion post heard of it. They turned over half their proceeds from the Armistice Day show.

Of the 138,000 men in the army, 18,000 are officers, the American Legion has learned. But the War department explains that the reason is that we must have an army which will march overland. In other words, there are seven men to each officer extant.

## WON'T WITHDRAW SIBERIAN ARMY

JAPAN TO KEEP FORCES THERE TO PROTECT ITS INTERESTS, SAYS FOREIGN MINISTER.

QUESTION UP AT CONFERENCE

Political Stability Must Be Established Declares Count Uchida in Speech Before Diet.

Washington—Consideration of her own safety compels Japan to continue for the present her forces in the maritime provinces of Siberia, Foreign Minister Uchida declared before the diet in Tokyo, according to a text of his speech made public Sunday by the Japanese embassy.

Count Uchida declared in his speech that upon the re-establishment of political stability in Siberia, the Japanese would lose no time in withdrawing their troops. He explained that the principal object of the negotiations with the far eastern republic of Chita, apart from a discussion of questions concerning general commerce, was to obtain the assurance from the Chita government that Japanese lives and property would be protected, that there would be security of general traffic, a removal of menace to Japanese national existence and a safeguarding of industry.

The foreign minister was quoted by the embassy as continuing: "We have no territorial ambition nor any intention to secure for ourselves exclusive rights of any kind. The occupation of Saghalien Island has been caused by the unprecedented massacre at Nikolaevsk, and Japanese would certainly discontinue it upon satisfactory settlement of that incident by a responsible Russian government."

LABOR BOARD CUTS OVERTIME

Railroad Men to Receive Extra Pay After 9 Hours Work.

Chicago, Ill.—Abolition of penal overtime payments until after the ninth hour of work, and authorization of "split shifts," instead of compelling overtime payments, or two shifts for overtime work over a span of more than eight hours, are important changes in rules governing railroad clerical and terminal employees issued by the United States railroad labor board.

The new rules, which become effective February 1, supersede the national agreement made by the federal administration with the brotherhood of railway and steamship clerks, freight handlers, express and station employees, which has been in effect since January 1, 1920. About 300,000 employees are affected.

PRESIDENT WIRES CONDOLENCES

Pope's Demise Will Be Deeply Mourned, Harding Declares.

Washington—President Harding's condolences on the death of Pope Benedict were dispatched Sunday by Secretary Hughes to Cardinal Gasparri, papal secretary of state.

"Deeply regretting to learn of the demise of His Holiness Benedict XV," the message said, "the president desires me to express to Your Eminence profound condolences. His eminence, his promotion of peace as well as his kindly spirit and great learning won for him a place in the hearts of men everywhere. His death will be deeply mourned throughout the United States."

DEAD GIRL MAY BE RUM LEADER

Police Believe Drug Victim Is Head of Band of Bootleggers.

New York—The past of a beautiful young woman, whose body is in the public morgue, is being investigated by police in the belief that she was the leader of an international bootlegging ring of daring activities.

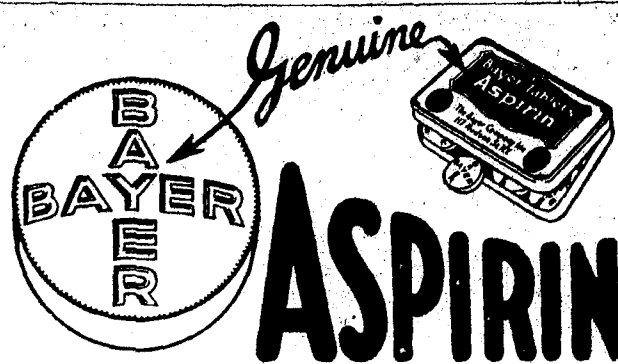

The young woman, only 21 years old, and known as Dorothy Wardell, was taken from a train which arrived from Montreal, unconscious from an overdose of heroin. A girl companion, described as Doris Pembroke, 24 years old, was also in a critical condition.

Slender Waistline No More.

London—Sherwood Foster says there is not a woman with so small a waist line today as was fashionable in Mediaeval times in England. In connection with the Devonshire House fete there was a pageant showing the styles of all ages. Mr. Foster found a 13-inch waist. While scores responded, all of them were over-sized, many of them having waists of 18 inches, and only two—the smallest—with 15-inch waists. They failed to squeeze into Mediaeval costumes.

Charge Blue Sky Law Violation.

Lansing, J. Arthur Bole, Ingham county prosecuting attorney, issued a warrant for the arrest of T. H. Quinlan, local manager of Anderson, Brown & Co., on a charge of violating the blue sky law. The Anderson-Brown company, with offices in New York, Lansing and Detroit, have been cited before the securing of a sale sign on a charge of offering for sale in Michigan stocks that have been disapproved by the commission and barred from sale in this state.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

Clear Case.  
"I don't take prohibition cases," said the lawyer.  
"But I'm an innocent man, I tell you. I'm charged with having liquor in my possession, but I'm the person who called up the police department and stated that I had found twenty-four quarts of Scotch buried in my backyard."

"You say you called up the police and let them carry off that Scotch when you might have concealed it in a hundred different places and defied the true owner to get possession of it?"

"Certainly."  
"Well, you must be innocent. I'll engage to defend you."—Birmingham Age-Herald.

What Did They Mean?  
On Christmas morning the children of the house were spreading out the toys that Santa had put in their stockings.  
"Father," said Willie, "I wish I had got a dictionary in my stocking as well as these toys."  
"Why? What did you want that for?"  
"So that I could find out the meaning of words I heard Santa Claus say when he stepped on the racks I spread on the carpet last night."

Attack Premature.  
"Why did you strike this haberdasher's clerk?"  
"Your honor," said the large, un-couth person, "he showed me a collar and said it was a 'perfect dear.'"

"Well," continued the judge, "when did you hit him in the store for? Couldn't you wait until after closing time and catch him in an alley?"—Birmingham Age-Herald.

The medium should always be in good spirits.

The Reason.  
At a football game an old gentleman was watching from the grandstand, and at the end of the first half he pulled a bulky cigar case from his pocket and, turning to an enthusiast sitting beside him, asked: "Do you smoke?"

The enthusiast, expecting a nice cigar, promptly replied: "Yes."  
"Ah! Then you don't mind my smoking?" smilingly replied the old gentleman.

Long-Distance Music.  
A concert was recently heard thousands of miles away over the wireless. "Nothing new about that," comments J. B. M. waggishly; "here in Boston 20 years ago I heard a young lady singing 'In Old Madrid.'"—Boston Transcript.

## FARM BUREAU NOTES.

(Continued from first page.)  
 eliminating tuberculosis from cattle, and by pasteurizing milk.

Never let open milk bottle stand around with milk in it. Stand on ice with tumbler over.

Farmers' Bulletin 802, from Bureau Animal Industry, United States Department of Agriculture says:

"Cows should be tested for tuberculosis by a capable veterinarian at least twice a year.

"Reacting cows should be removed and premises thoroughly disinfected.

"Far more reason for daily grooming of cow that produces human food, than of horse that hauls a manure spreader or garbage wagon.

"Most common defect in dairy stables is lack of cleanliness."

Dr. Ward Gilmer, Professor of Bacteriology and Hygiene, Michigan Agricultural college says:

"It is an absolutely established fact that pasteurization will destroy disease producing bacteria that are commonly found in milk.

"Select the progressive milk distributor who is spending time and money to give you the best milk.

"The progressive dealer will tell you about his methods and his equipment."

The University of Illinois Experiment Station tells how to pasteurize milk in the home:

"1. All milk intended for babies should be pasteurized in the home. An ordinary double boiler furnishes a satisfactory way.

2. Fill both parts of double boiler with water. Depth of inner compartment should be such that when the nursing bottles are placed therein, the height of the water be slightly above height of milk in bottles.

3. Place double boiler on stove, and put nursing bottles containing milk to be pasteurized in water of inner compartment. Tops of bottles should be tightly stoppered with clean, non-absorbent cotton.

4. Place dairy thermometer in water. When temperature of water reaches 150 degrees Fahrenheit, remove double boiler to back of stove and allow to stand covered 30 to 40 minutes.

5. Then chill milk quickly. Set bottles in large dish pan or bread pan containing cold water.

A single bottle can best be quickly chilled by holding side of bottle under running water at such angle that milk is not spilled nor cotton plug wet."

## BIG FEATURES.

Dean Russell, of the Wisconsin Agricultural college, acknowledged as one of the greatest authorities in the United States on agricultural topics and W. B. Mershon, of Saginaw, widely known authority on game and wild life, will be the principal speakers at the annual meeting of the North-eastern Michigan Development bureau which is to be held on Feb. 7, having been postponed from January 24 for the sole purpose of having these men present. Dean Russell was to have made a tour of Michigan the latter part of January but he was called to Washington to take part in the agricultural conference called by the administration, making necessary the postponement of his Michigan trip, which is under the auspices of the new state department of agriculture. Mr. Mershon is vice president of the American association for the conservation of wild life and he will talk of "Wild Life in Michigan."

The business meeting of the bureau will be held at the Board of Commerce building at 10 a. m., at which time directors will be elected and other business transacted.

In the afternoon an agricultural lecture will be held at the armory. Dean Russell's speech will be delivered at this meeting and other speakers will be Mrs. Dora Stockman, the first and only woman ever elected a member of the Michigan board of agriculture, and H. H. Halliday, J. A. Doelle and Ezra Levin, of the Agricultural department will also make short addresses.

Following the meeting at the armory conference will be held with members of the recently organized Huron Shore Tourist association, at which delegates from the shore town of the Thumb will be present, and definite plans for advertising the resorts of the Huron Shore will be presented. The bureau is a member of this association and its business will be transacted at the bureau office during the year.

The big event of the day will be the annual dinner given by the bureau to its members, at the Board of Commerce, at which Mr. Mershon will be the principal speaker and at which will also be offered some unique entertainment.

## PRESIDENT URGES LAKES-TO-SEA CUT

TELLS AGRICULTURAL CONFERENCE PROJECT IS FEASIBLE AND NECESSARY.

## MEANS LOWER FREIGHT COSTS

Access of Ocean Vessels to Lake Ports Would Stimulate Agriculture and Industry.

Washington—Feasibility of the St. Lawrence-Great Lakes waterways project "is unquestioned" President Harding declared Monday before the National Agricultural conference.

"I have spoken," the president said, "of the advantage which Europe enjoys because of its easy access to the sea, the cheapest and surest transportation facility. In our own country is presented one of the world's most attractive opportunities for extension of the seaways many hundreds of miles inland. The heart of the continent, with its vast resources in both agriculture and industry, would be brought in communication with all the ocean routes by the execution of the St. Lawrence waterway project.

"To enable ocean going vessels to have access to all the ports of the Great Lakes would have a most stimulating effect upon the industrial life of the continent's interior.

"The feasibility of the project is unquestioned, and its cost, compared with some other great engineering works, would be small. Disorganized and prostrate, the nations of central Europe are even now setting their hands to the development of a great continental waterway, which, connecting the Rhine and Danube, will bring water transportation from the Black to the North sea, from Mediterranean to Baltic.

Three hundred delegates representing agriculture in all its phases and the industries related to farming attended the opening session, which was convened by Secretary Wallace.

Development of a thorough code of law and business procedure, with the proper machinery of finance, to assure the farmer as generous a supply of working capital on reasonable terms as is granted to other industries was advocated by the president.

Lines on which financial support of agriculture may be organized, Mr. Harding said, are suggested in the plan of the federal farm loan board and in those rural finance societies which have been so effective in some European countries.

The president told the conference that "concerning the grim reality of the present crisis in agriculture there can be no difference of opinion among informed people."

## WORTH CONSIDERING.

The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you will consider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. There are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.

Order Fixing the Time and Place for Public Hearing.

State of Michigan ss.

County of Ingham  
 Petitions having been filed with this department, signed by twenty-five residents of each of the Counties of Otsego and Crawford, Michigan, asking that a time and place be fixed for a public hearing to determine the advisability of regulating the open season, size and manner of taking of brook trout in AuSable River, now fixed by law, because of the threatened depletion or extermination of such fish in said river.

THEREFORE, I, John Baird, Director, Department of Conservation, do hereby designate and fix the said time and place for the said public hearing as follows, to-wit: The city of Grayling on the 7th day of February, 1922 at ten o'clock in the forenoon at the Court House which hearing may be continued or adjourned for such time as may be deemed advisable by the said Director to afford all persons interested an opportunity to be heard in regard to the petition to regulate the open season, size and manner of taking said brook trout.

**STOMACH TROUBLES**  
 AN IRRITABLE, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach troubles by Chamberlain's Tablets after years of suffering. These tablets strengthen the stomach and enable it to perform its functions naturally. Try them. They only cost a quarter.
